

On October 21, 2019, BluePrint 2025 and CG/LA Infrastructure recognized SeaOne's CGL Export Project as a **Top 10 U.S. Private Investment in Infrastructure Project**.

CG/LA stated: **“This ground-breaking US\$20 billion project with patented CGL™ technology can reduce up to 50% regional fuel costs with the added benefit of helping reduce greenhouse gas emissions by at least 60% compared to other fossil fuels.”**

CG/LA identifies and hosts the North American region's top infrastructure projects for 2019. These are projects that offer business opportunities in the next 3–18 months, and that will bring the region back to growth and job-producing competitiveness.
